**FEED YOUR SOCIAL
CRAVINGS**

Talking Points

1. Heuristic Evaluation Results
2. Prototype Status/Live Demo!

HE Results

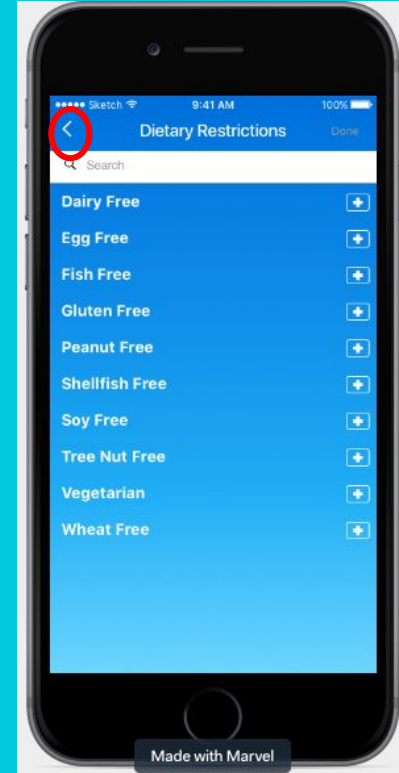

level 3 and 4 issues

Login/Logout

Violations

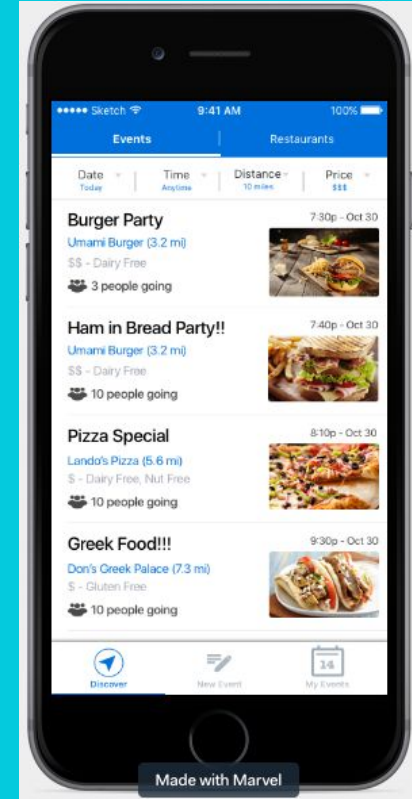

1. No logout functionality
(planned fix using profile page)
2. Back button during account creation
(resolved)

Account Settings

Violations

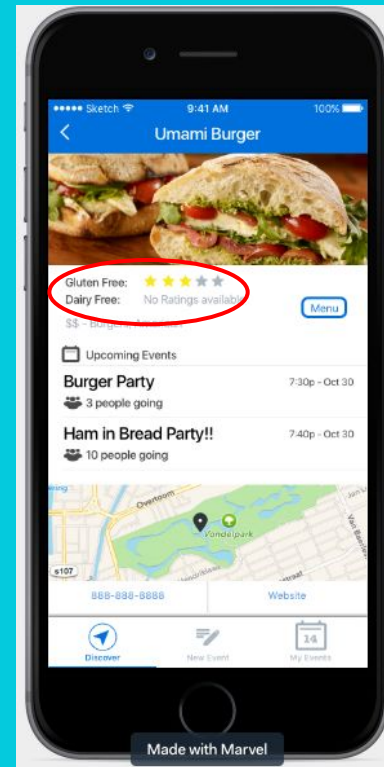

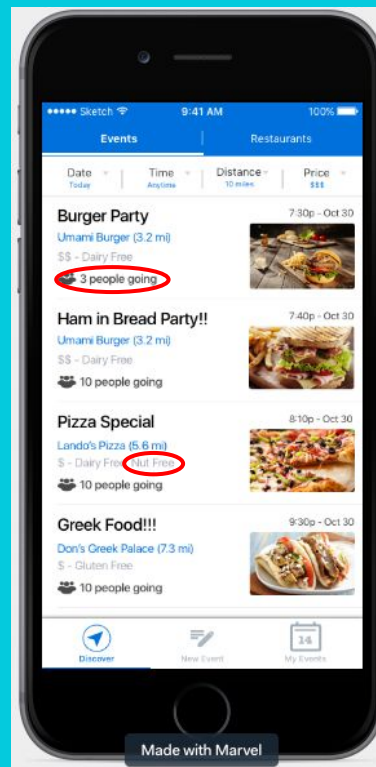

1. No ability to edit profile/account settings after account creation (planned fix using profile page)
2. Monitoring of user preferences (future work)

Displayed Content

Violations

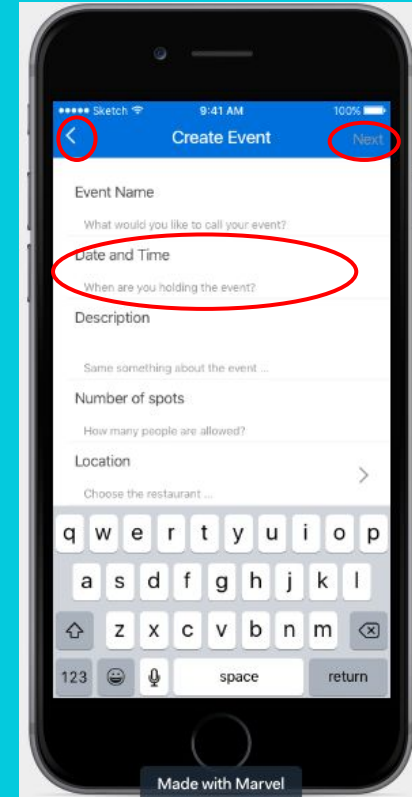

1. Display of irrelevant/distracting information (partially resolved)
2. Unclear relationship between category and overall ratings (overall ratings is an average of dietary restrictions ratings)

Event Creation Process

Violations

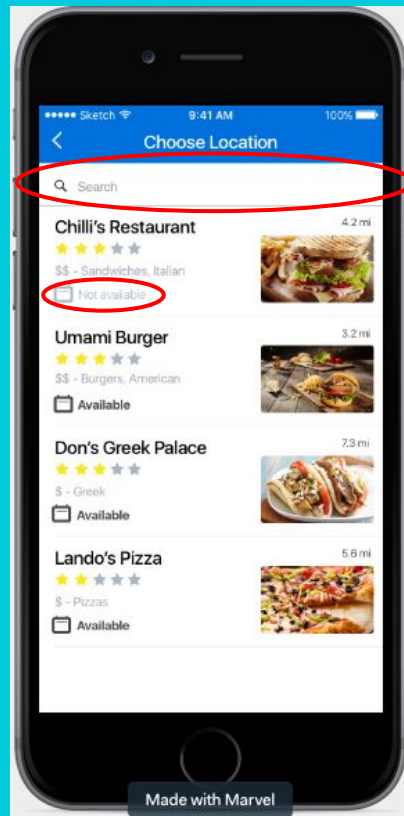

1. “Next” buttons and the resulting function may be unclear (resolved)
2. Cancel vs. back button (resolved)
3. date/time selection (resolved)
4. No functionality to save drafts of events (future work)

Event Location Selection

Violations

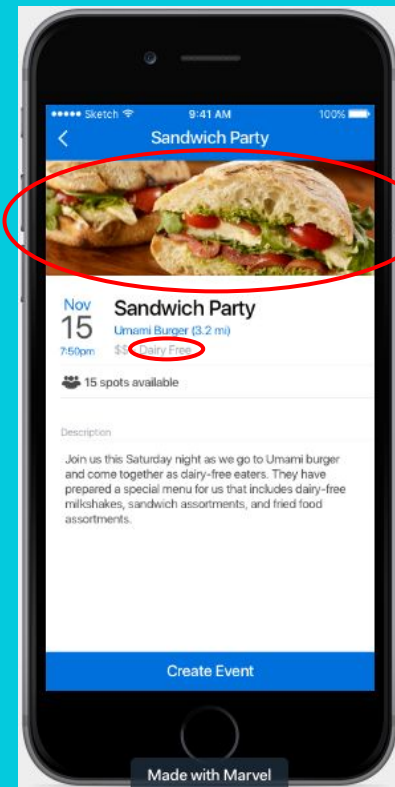

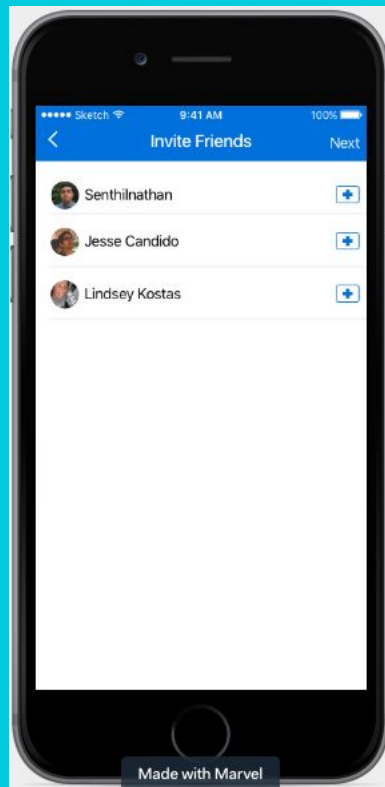

1. Restaurant searchability
(planned fix)
2. What does available/unavailable mean?
(resolved)

Automatically Populated Fields

Violations

1. Suggested friends to invite
(resolved/future work)
2. Event photo
(future work)
3. Dietary restriction tag(s)
(resolved)

The Prototype

Implementation Status

Tools

《COCOAPODS》

Live Demo

Implemented Features

- Find Restaurants (task 1)
- Join Events - almost done (task 2)
- Create Events - almost done (task 3)

No Wizardry Required

(just a little bit of hard-coding)

- Restaurant List
- Restaurant Ratings and Reviews
- Events List
- Other Users
- Restrictions List

There's Still A Lot On Our Plate

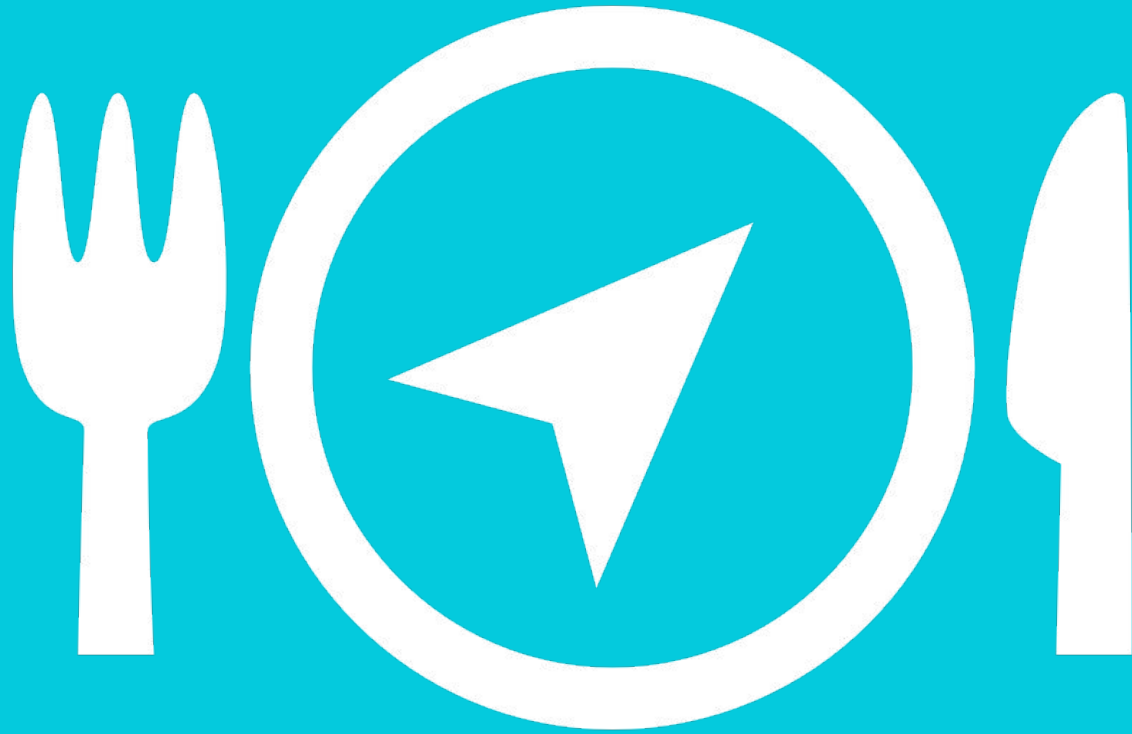

- Login/Sign Up Pages
- Logout functionality
- Account and Profile Creation/Editing
- Event Management
- Event Chat Functionality

Summary

A lot already done

Lots still to do

But we're feeling good!

Thank You

Index

HE Results

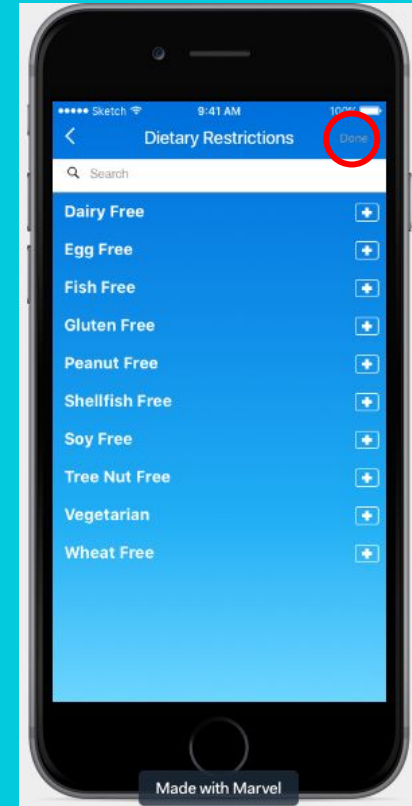

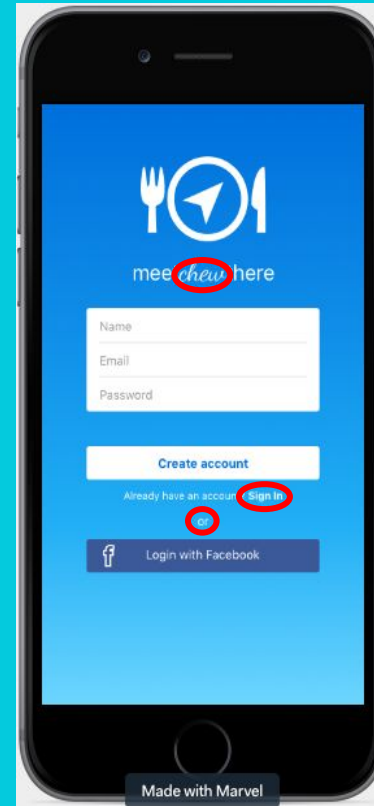

Level 0, 1, and 2 issues

Login/Logout

Violations

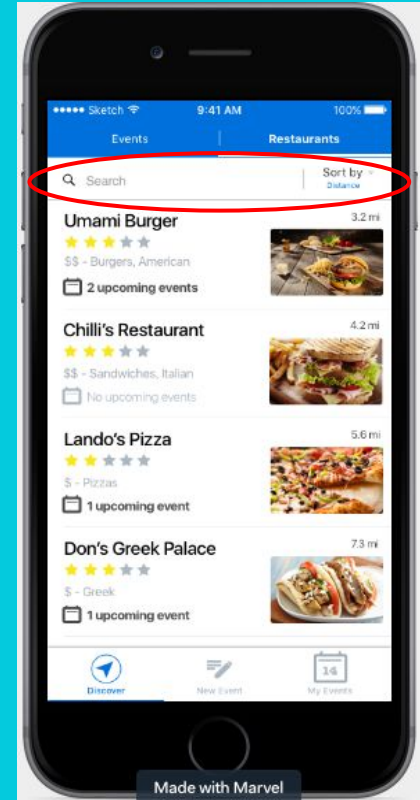

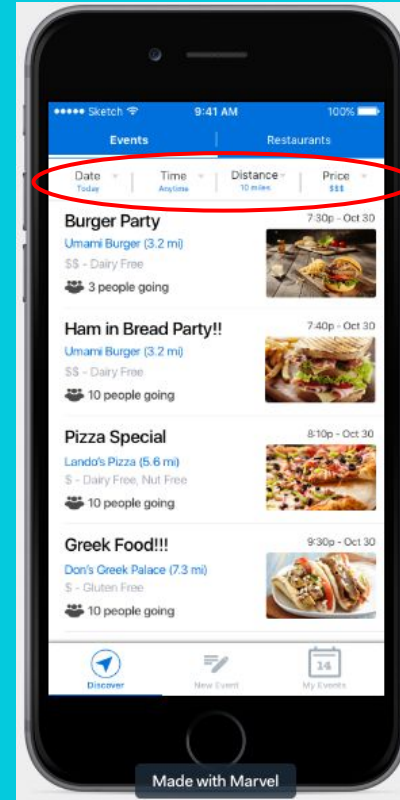

1. Readability
(planned fix)
2. Successful account creation is never indicated to user
(planned fix)
3. User's selection of dietary restrictions is limited
(future work)

Discover Pages

Violations

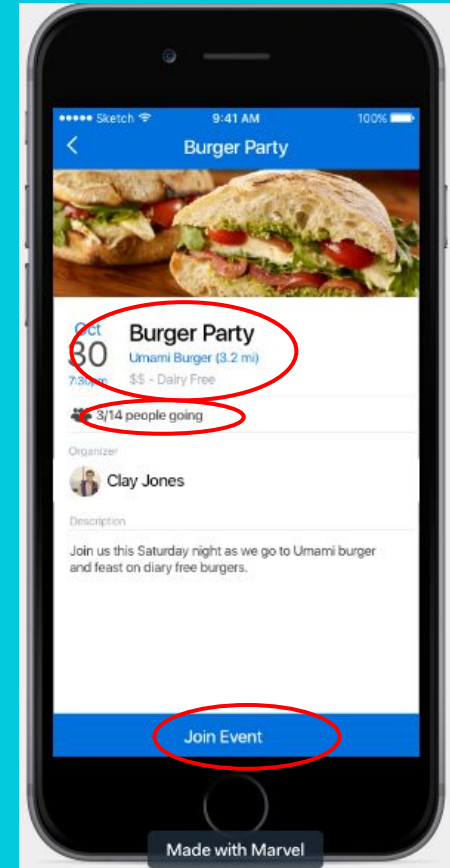

1. Too much content on one page?
(resolved)
2. Searchability of content
(future work)
3. Similarity of Restaurant and Event
Views

Event Details

Violations

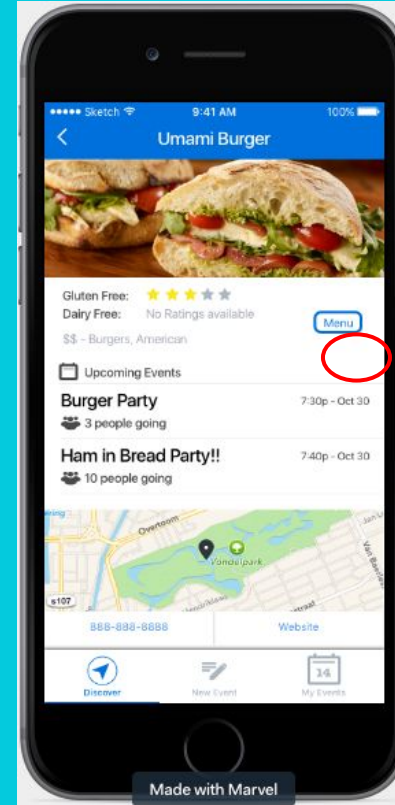

1. Number of people going is confusing (potential planned fix)
2. Page layout is unnecessarily squished
3. follow/ignore event option (future work)

Restaurant Details

Violations

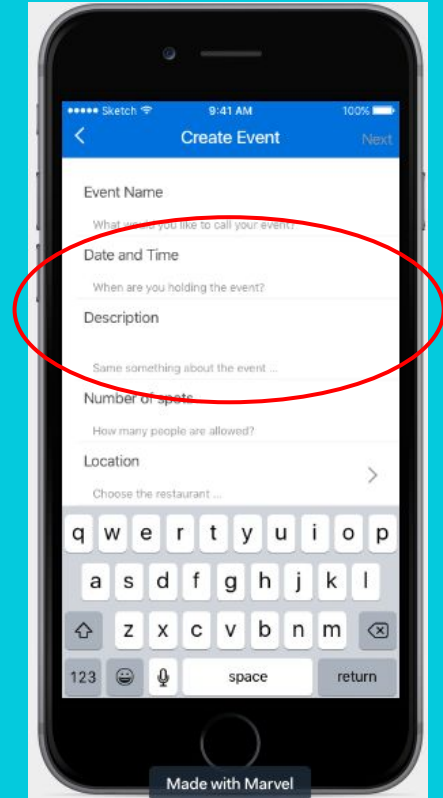

1. Too much content (resolved)
2. Menu button (resolved)

Event Creation Process

Violations

1. Uneven spacing between data fields (resolved)
2. Recurrent/repeat events for frequent users (future work)
3. invite friends vs everything else (resolved)

Event Management

Violations

1. Searchability/sorting
(potential planned fix)
